

Important Information

The OSCB are launching a new training system from 1st August 2017.

From August we will be introducing a new system for booking training. Further communication detailing the new system will be advertised nearer the time.

What this means for you...

- You will no longer be able to access the online learning that the OSCB has commissioned from the Virtual College.
- You will no longer be able to access your learning history or download certificates.

What you need to do...

You will need to log onto the current training portal with Virtual College and download your certificates for any eLearning or face-to-face courses you have completed. Please make sure your certificates are saved. This needs to be done by 31st July 2017. It is important you do this otherwise you will **not have proof** of any training you have undertaken.
