Child Exploitation Screening Tool

Guidance for completing

The screening tool uses the term 'child' deliberately to remind us that a child at risk of exploitation is a child in need of protection and not a young adult making poor choices. It is designed to be used by all professionals working with children and parents or carers. A child is defined as a person who is under 18 years of age.

The screening tool is designed to help identify possible risks of exploitation and should be used where there are such concerns about any child/ren. Your observations of behaviours and any significant changes will be important as children will often deny or be unaware that they are being exploited.

Significant changes in behaviours, a single high-risk episode or multiple risk factors may indicate that the child is a victim of abuse through exploitation rather than a teenager experimenting with risk taking.

This is an initial screening tool, and not a risk assessment. Please complete as fully as possible. Practitioners should discuss with their safeguarding leads, before progressing to the Multi-Agency Safeguarding Hub (MASH). Once completed there are several outcomes:

- Risk of Exploitation is not a key vulnerability at this point.** If this is the case this document should be kept securely. Advice can be sought from the Locality and Community Support service (LCSS) (phone numbers below in no.3) If concerns increase please update and review if referral to MASH is needed.
- Screening tool indicates that there is a risk of Exploitation:**
 - For children not open to Children's Social Care please send the completed screening tool to the LCSS, who chair the 'local network meetings.' The tool should be sent a week in advance for discussion at the next meeting to the following area email addresses:
LCSS.central@oxfordshire.gov.uk; LCSS.North@oxfordshire.gov.uk;
LCSS.South@oxfordshire.gov.uk
 - If a MASH referral is required the completed screening tool should be submitted to MASH. If you are unsure if it is a new case send through to MASH who will triage mash-children@oxfordshire.gov.uk** . Professionals will also need to complete a MASH enquiry form. If Child Sexual Exploitation (CSE) is clearly indicated, the case will be passed to the Kingfisher team for allocation or signposting. For other forms of Exploitation, MASH will information share and Triage to the right service. If there is a mixture of CSE and other Exploitation the Team Managers in Kingfisher and MASH will agree the most appropriate course of action and inform the person completing the tool.
 - For cases currently open to CSC**, practitioners should discuss their concerns, and where possible complete the screening tool, with the allocated social worker/core group, to inform next steps. If CSE is identified as a key concern please forward to Kingfisher team. For other Exploitation please forward to the inbox of the Missing and Exploitation Panel.
- If you are unsure whether there is a risk of exploitation, a 'no names consultation' is available via the Locality and Community Support Service (LCSS):
LCSS North Tel: **0345 2412703** LCSS Central Tel: **0345 2412705** LCSS South Tel: **0345 2412608**

Advice re CSE is also available via the Kingfisher team on **01865 309196**.
